The Collegiate Trust
Exceptional Education for All

Our Partnership of Academies

The Collegiate Trust exists to improve education in Crawley, Croydon and surrounding areas. We work in partnership with academies whose values and approaches align with ours, and who want to work collaboratively within a forward thinking and ambitious organisation.

Academies in The Collegiate Trust

- maintain a strong individual identity within a powerful local partnership
- work collaboratively to improve education in each of our partner schools
- achieve value-for-money on highly cost-effective services delivered through the Trust
- have the opportunity to contribute to the development of outstanding new provision where it is needed, through the free schools programme
- drive forward standards within their school under a well-supported but autonomous Principal and a strong Local Governing Body
- deliver our mission of **Collaboration to Deliver Exceptional Education** and achieve our vision of **Exceptional Education For All**

Our Vision

Our vision for The Collegiate Trust is to deliver **Exceptional Education for All** in safe and nurturing environments.

Such an exceptional education has three features:

- A rigorous academic education which makes sure young people have a rich understanding and knowledge of a wide and relevant curriculum
- A set of creative learning experiences which involves all young people in (and develops an appreciation and understanding of) the creative, performing and physical arts
- The building of personal qualities and skills through the rich curricular and extra-curricular work in the academy and beyond, developing successful adults who respect each other and their surroundings

Welcome

Riddlesdown Collegiate

Dear Applicant

Thank you for your interest in the post of *Teacher of Maths*. I hope that this information pack will help you to learn more about our fantastic secondary academies and that you will be excited about the prospect of joining our excellent team.

Whether you are at the very beginning of your career or are looking to develop your experience, *The Collegiate Trust* (TCT) is a great place for professional growth. NQTs benefit from a high-quality induction period prior to taking up post, and a well-established programme of support throughout the year, whilst more experienced colleagues have many opportunities to develop skills and extend their professional learning through an extensive and varied programme of professional development. Our aim in all

appointments is to appoint colleagues who will share our aspirations and make a major contribution to building the best life chances for our students.

In each of our two secondary academies, the Maths team is at the forefront of the excellent standards we already deliver and further developing the pedagogy to allow every student to achieve their best. In joining one of these outstanding teams, you will benefit from unrivalled professional support and development and be part of an incredibly successful but unwaveringly ambitious Academy and Trust.

I would be delighted to receive an application from you if, upon consideration, you feel that this role and TCT may be right for you. To apply, please complete the form on our website, attaching where requested a statement of no more than two sides of A4, identifying clearly how you meet the person specification. I look forward to hearing from you.

Yours sincerely

Mr Gordon Smith

CEO

Key Information

*The Collegiate Trust (TCT) has grown out of Riddlesdown Collegiate, an **outstanding** (OFSTED, May 2016) secondary school in Croydon with almost 2000 students and over 200 staff; in 2017 Riddlesdown was awarded the *World Class Status Quality Mark*. Gossops Green, in Crawley, was the next school – and the first primary – to join the Trust, followed by *Waterfield Primary* (also in Crawley) on 1st March 2018, *The Quest Academy* on 1st June 2018, and *Courtwood Primary* and *Gilbert Scott Primary* on 1st September 2018.*

TCT educates over 4000 children and young people from nursery up to 18 years of age. The responsibility that places on us is huge, but we are excited by the positive impact we already have on the lives of so many. We also employ almost 600 staff, and recognise our responsibilities as an employer in looking after the great people who work with us.

Each academy within the Trust is supported centrally by our team of *Directors of School Improvement* on teaching and learning issues, the *Chief Operating Officer, Chief Finance Officer & HR Manager* on business management and HR issues, and the *CEO* on wider leadership issues. This complements rather than replaces in-school functions and allows the Principal to lead the Academy in the best interests of its students, making best use of the fantastic talents of its staff.

We are looking to appoint into our Maths teams at both academies due to the popularity, success and growth of each; TCT academies are recognised locally for the quality education and the nurturing environments we provide. Should you have a preference for one of the two academies, please state in your application.

You can find out more information about our secondary academies, and other partners in our Trust, at the following websites:

www.thequestacademy.org.uk

www.riddlesdown.org

www.tct-academies.org

Maths within TCT

The Maths teams in each of our secondary academies are strong and well led; as a result, maths is one of our strongest subject areas overall. Whilst there are similarities in our provision across the two academies, for example all students study *Edexcel* GCSE, each team focuses on the specific needs of its students and develops pedagogy accordingly. The main aim of the Mathematics teaching programme is to enable all students to develop their ability to use their mathematical skills, knowledge and understanding in their everyday lives, for further study and for their future careers. Students will develop their problem-solving skills, their ability to think logically and analytically and learn how to communicate processes effectively and efficiently.

The Quest Academy

Maths sits in the *Maths, Business and Computing Faculty*, a team of ten specialists. Maths teachers are expected to teach across the age and ability range of the academy.

Students follow a condensed Key Stage 3 course over years 7 and 8, with each following a differentiated scheme of work. Students are set by ability from Year 7.

Students commence their GCSE in Year 9 and are taught in ability sets. The *Edexcel* GCSE course is followed by all groups. The progress of each student is monitored closely by the Mathematics Department and there are regular progress tests and internal examinations.

Students in *Quest6* (sixth form) follow a two year A Level Mathematics course taught in six periods per week. We also offer AS Mathematics taught in three periods a week over two years.

Riddlesdown Collegiate

We currently have fourteen specialist Mathematics teachers, including the *Director of Mathematics* and other responsibility postholders across the Colleges (small schools). All the staff teach across the age and ability range and it is the intention that every teacher has a balanced timetable, reflecting a variety of classes. In addition, the team is supported by a Higher-Level Teaching Assistant for Numeracy, who works with students across the age range. The Mathematics team is very strong and delivers very high standards; GCSE results are close to the top 20% of all schools nationally for value-added, with A Level results also outstanding.

Students are taught in ability-based teaching groups, the focus being on individual improvement and progress towards personal targets. All students are taught for at least three hours a week at Key Stage 3 and 4. Whilst schemes of work provide detailed teaching plans, teachers are encouraged to bring their own expertise and individuality to lessons. A variety of teaching styles, strategies and tasks are expected which take into account the differing learning styles and needs of different students.

Mathematics is also a popular subject at in *College VI* (sixth form). Students follow the modular A Level *Edexcel* course comprising Pure Mathematics, Mechanics and Statistics. A growing number of students are choosing A Level Further Mathematics each year, as well. This is a direct consequence of outstanding attainment at GCSE. Our most able students have the opportunity to participate in the UK Mathematical Trust Challenges and team events.

Job Description

Purpose of the Post:

To teach a full timetable across the age and ability range of the Academy, delivering agreed *Schemes of Work* and contributing fully to the subject area and Academy.

Accountable to:

Subject Lead

PRINCIPAL ACOUNTABILITIES

Curricular Leadership

- i. To teach an agreed timetable.
- ii. To prepare and deliver effective lessons, ensuring regular assessment informs all aspects of planning.
- iii. To contribute fully to collaborative development and improvement within the subject area, Academy and Trust.

Pastoral Leadership

- i. To be a form tutor within the Academy, monitoring and supporting the academic and social development of members of a Tutor Group.
- ii. To undertake duties at the direction of the Principal.
- iii. To promote and safeguard the welfare of all children and/or young people for whom you are responsible or with whom you come into contact with.

Professional Leadership

- i. To participate in all performance management processes.
- ii. Through line management arrangements, ensure professional developments needs are identified and addressed.

Person Specification

Qualifications
Good honours degree
Qualified Teacher Status (or working towards)
Experience
Effective working with young people of a range of ages and abilities
Evidence of making an effective contribution to a team
Skills and Attributes
Ability to deliver high quality learning over time to all students in the subject area
Ability to be an effective Tutor
Capacity to work alongside colleagues, contributing effectively to a team
Ability to quickly establish and maintain positive relationships with students, staff and families
Understanding of safeguarding issues and promoting the welfare of children and young people
Well-developed communication skills, including high level of written and oral literacy and competent ICT use
Suitability to work with children
Potential for professional progression
Commitment to extra-curricular activities

The Collegiate Trust is committed to safeguarding and promoting the welfare of children and expects all staff and volunteers to share this commitment. Applicants must be willing to undergo child protection screening appropriate to the post, including checks with past employers and the ***Disclosure and Barring Service***.

Appointment will be dependent upon further health, medical and attendance checks.
